a handbook with step by step instructions for tackling common home repairs exterior fixes and general home maintenance

the c3 corvette s swooping fenders and unmistakable body style capture the imagination and make it an enduring classic about a half million corvettes were sold between 1968 and 1982 and the unique combination of shark style handling and v 8 performance is revered some early c3s built between 1968 and 1974 are simply too rare and valuable to be modified particularly the big block cars the later corvettes built from 1975 to 1982 came with low compression engines that produced anemic performance the vast majority of these corvettes are affordable plentiful and the ideal platform for a high performance build corvette expert high performance shop owner and builder chris petris shows how to transform a mundane c3 into an outstanding high performance car stock corvettes of this generation carry antiquated brakes steering suspension and anemic v 8 engines with 165 to 220 hp he covers the installation of top quality aftermarket suspension components ls crate engines big brakes frame upgrades and improved driveline parts the book also includes popular upgrades to every component group including engine transmission differential suspension steering chassis electrical system interior tires wheels and more whether you are mildly modifying your corvette for greater comfort and driveability or substantially modifying it for vastly improved acceleration braking and handling this book has insightful instruction to help you reach your goals no other book provides as many popular how to projects to comprehensively transform the c3 corvette into a 21st century sports car

in how to build a high performance mazda miata mx 5 author mx 5 expert and flyin miata co owner keith tanner offers thorough instruction to help readers select the best parts and modification to tune their miata to best achieve their motoring goals revised and updated throughout to cover the fourth generation miata

the first generation mustang is an enduring classic but it was built using 50 year old technology these cars use antiquated equipment that includes drum brakes breaker points ignition systems and 14 inch steel wheels the oem running gear is obsolete by today s standards but all of these mustangs can turn into high performance street machines that can compete with late model mustangs while certain special build and high performance models should be preserved many common v 8 mustangs can be transformed into high performance cars that rival the new cars of today the mustang can be upgraded and

modified into a true driving machine by installing aftermarket suspension steering and driveline technology mustang expert and former ford engineer frank bohanan explains how to perform simple and important bolt on upgrades that radically increase performance he explains the rationale and process of installing a crate engine big high performance brake kits coil over shocks tubular a arms multi link rear suspension and many other projects that increase performance by leaps and bounds from mild to wild you are shown how to upgrade each component group in the car by stages according to budget and difficulty these components include engine transmission rear differential front suspension rear suspension steering chassis electrics interior tires wheels and more by completing these procedures and product installs you can complete an improved street car a high performance street car or a street track day car no other book provides the same level of information and instruction for transforming the first generation mustang into a car that performs with the best on the road today

farmall ford john deere international case allis chalmers minneapolis moline oliver orphan makes and more techniques for authentic show and work tractor restoration

this vintage handbook offers insights into the fundamental practice of leathercraft with a special focus on the leather belt this early collection on leather craft includes articles that would be both expensive and hard to find it contains easy to follow instructions on making leather belts and of the designs and techniques involved contents include leather crafting belts fundamentals of leathercraft how to make braided and link belts link belt extensively illustrated with photographs and instructional diagrams it is suited to the leatherwork novice and enthusiast alike with many details still of practical use today we are republishing this rare work in a high quality modern and affordable edition featuring reproductions of the original artwork and a newly written introduction

technical instructor and hvac expert jerry clemons completely covers both air conditioning as well as heating systems so you can save money repairing your own vehicle covered is a history of hvac systems airflow throughout the system the principles of refrigerant diagnosis of common faults in older systems testing procedures and finally repair and in the case of air conditioning recharging your system also included is proper evacuation and disposal of any residual refrigerant in the system
